3. Scientific Research Department
4. Philosophical Literary Research Department
5. Kaivalya Vidya Niketan School
6. Publications
7. Gaushala
8. Herb Gardens

KAIVALYADHAMA

Where Yoga tradition and Science meet

Holistic Care Centre for Cancer Survivors and Lifestyle Conditions
(PROJECT ANAND)

THE PROBLEM

70%

of all global deaths are due to non-communicable diseases (NCDs) like cancer and diabetes

40+ Million

people lose their life to non-communicable diseases every year

~80%

of these deaths occur in marginalised and low-middle income families

The Good News! These deaths are preventable. Precious lives could be saved.

At Kaivalyadhama, we conduct evidence-based scientific research, which proves the effectiveness of holistic care and Yoga practices in dealing with non-communicable diseases.

However, due to limited infrastructure and staff, we feel guilty for being unable to serve more than 75% of the people who reach out to us.

KAIVALYADHAMA

Where Yoga tradition and Science meet

Holistic Care Centre for Cancer Survivors and Lifestyle Conditions
(PROJECT ANAND)

THE SOLUTION

1. Kaivalyadhama has been relentlessly working to provide holistic care and ethical Yoga practices to curb non-communicable diseases.
2. Great success rate and word-of-mouth publicity has led to more number of people approaching us for therapy and treatment.
3. There is a huge increase in the demand of our services for tackling NCDs.
4. **Thus, we urgently need a Holistic Care Centre for serving Cancer Survivors and people affected by Lifestyle conditions.**

KAIVALYADHAMA

Where Yoga tradition and Science meet

Holistic Care Centre for Cancer Survivors and Lifestyle Conditions
(PROJECT ANAND)

Wouldn't you help the Cancer
Survivors and people affected by
lifestyle conditions?

KAIVALYADHAMA

Where Yoga tradition and Science meet

Holistic Care Centre for Cancer Survivors and Lifestyle Conditions (PROJECT ANAND)

We are constructing Project Anand to help cancer patients and those affected by lifestyle conditions

This center will be located within our Lonavala campus to effectively serve those who are suffering

We envisage to provide accommodation, treatment and therapies as per the needs of cancer survivors and people affected by NCDs

With your support, we could offer

30 new rooms offering clean, hygienic and comfortable accommodation

A central space for Yoga and meditation (Dhyan Mandir)

Dining space and Kitchen (Tattua)

Special treatment rooms for Therapies

Library (Atmamanthan)

Large open space in sync with the nature for relaxation and healing

KAIVALYADHAMA

Holistic Care Centre for Cancer Survivors and Lifestyle Conditions
(PROJECT ANAND)

OUR WORK

1

Kaivalyadhama continues to be the oasis of holistic, undiluted Yoga since 1924

2

We have been conducting intensive residential yoga therapy retreats with multi-pronged interventions for survivors of cancer and other chronic NCDs, for over six years

3

Our investigations and data have shown that after undergoing the programs, the participants demonstrated a better ability to manage their illness

4

Our research indicates that yoga therapy has tremendous potential ushering holistic improvement of health and psychological empowerment to people suffering from NCDs

5

The success of these programs has been validated by the long waiting-lists of interested participants

6

We continue to undertake demonstrable research on the impact of Yoga on NCDs and thereby integrate the learnings into Yoga therapy

Design

Dhyana Mandir (Yoga
& Meditation Hall)

Treatment rooms

Tattva (Nourishing
dining and kitchen)

Atmamanthan
(The Library)

Dedicated Service
Desk

Consulting Rooms

Meditation Pods

Subodh Tiwari (CEO-Kaivalyadhama) speaks

Swami Kuvalyananda once said:

“Modern medical science also has come to believe that emotion is the ultimate root cause of all diseases. Yoga aims at bringing about complete equilibrium of intelligence by controlling emotions, and by restoring perfect harmony between body and mind”.

He was a great visionary who saw immense scope for the application of Yoga in all spheres of life and serving the needy.

We continue to spread the knowledge about Yoga and its impact on the people, all across the world. But today we have reached out to you for a special purpose, and we think we have space to share that with you as a friend of Kaivalyadhama.

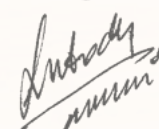

We request you to consider a contribution, which would enable you to serve the people who are Cancer survivors and those affected by lifestyle conditions. The greatest gift of mankind is to support another human being, and nothing can measure the joy of giving when it's for someone who is without hope and support. Life goes on, but some human acts remain embedded on the sands of time, due to the large impact it has on the well-being and the lives of other people. Project Anand, is one such project which would leave your generosity to impact people and convey their resounding “thanks” for years to come.

We would urge you to consider being a part of Project Anand through your contribution and also sharing the project with your family and friends. Each drop makes an ocean, and here, there are multiple avenues available, and you could choose the one that best meets your views. You could even consider making a gift in kind by supporting us with various materials required in the project. Our team would be very happy to meet you and present the various opportunities for support. You may even consider naming a particular section of the project after your loved ones.

Thank you for being a part of the journey at Kaivalyadhama. We look forward to your suggestions and participation.

On behalf of thousands of Cancer survivors and people affected from lifestyle conditions, I can't thank you enough for considering Project Anand for your donation.

Warmly, in appreciation and gratitude,

Subodh Tiwari
CEO, Kaivalyadhama

BENEFITS TO DONORS

1

Making a Difference

The opportunity to make a positive difference in the lives of over 10,000 people every year through yoga, health, healing, well-being and lifestyle modification benefits
